Document Boxes #21: Little Theatre Group

The Little Theatre Group (LTG).

Material from Eleanor Miller's daughter Helen, to Ella Stevens Ibuargen, to hist soc
History of The Little Theatre Group, 1950-1963, by Judy Davidson

The Little Theatre Group was established in 1950 according to the Boothbay Register. The group was directed by interested local citizens who became the board of directors. A "List of Management," found in a program from the play "The Ghost Train," produced in 1951 included the following positions: Director Sherwood Keith, Assistant Director Louise Abelon, Stage Manager, Virginia Hatch, the treasurer and members helping with such tasks as scenery, lighting, tickets, publicity, prompting, ushers, etc. Each program appears to have listed the backstage company, as well as the list of characters (played by local citizens), and a short synopsis of the play.

The earliest record of the Executive Board meeting is Sept. 1952. Each season the board appointed a chairman of the Play Read committee who read scripts and chose the plays for that season, November to April. ????

The first meeting of the entire group (31 people) was held in October 1951. At group meetings, the final choice of plays for the season was made, the director and assistant director were chosen, and a rehearsal site was chosen. In the early years possible rehearsal and meeting locations included the home economics building, the Pythian Hall (Opera House), the YMCA, and the Tourist Lounge (Hbr town office).

23 plays were documented between 1951 and 1963. The last recorded minutes of the LTG were possibly the fall of 1960, at which time "Gramercy Ghost" was selected for presentation in February 1961.

Document Box #27: Philip Haselton Collection

Philip, 1925-2014, researched West Harbor history in the vicinity of his property focusing on the Wylie family deeds as well as those of abutters. Also valuation records, newspaper info, all available sources. Barbara Rumsey helped him and Files 3 forward are hers with him. Most of his work was done after 1999. Many topics extend to other files, so all should be skimmed for related material. Some Creamer material might be in Bound Family History for Creamer.

Document Box #28: Boothbay Assessors 1946

Lists of personal property and real estate of residents who listed their real estate Vouchers-Town of Boothbay. Acc #06-10-118-125

These vouchers were issued by the town (signed by Selectmen) to various suppliers, workers, teachers, physicians, etc. for good sold or services rendered. The vouchers did not bear interest, and were payable by the Town Treasurer to the named Payee “or order” immediately after invoice. In essence, these vouchers appear to institute authorization by the Selectmen for the Treasurer to suppliers or providers of services.

With the exception of loose items, the vouchers are bound in separate groups which apparently reference page numbers of a corresponding Town ledger. The vouchers deal with such items as wood for schoolhouses, reimbursing the cost of paupers to those housing them, labor on highways, board of teachers, etc.

Document Box #48: BOOTHBAY HARBOR ADDRESS CHANGE, late 1990s

In conjunction with E-911 emergency phone system, most of the street addresses in the Harbor were changed. B. Rumsey got from the town a pre-E-911 1997 list, laid out by street, including map and lot numbers and names of owners. Also Rumsey got a set of tax maps at that time. In December 1999, Rumsey got a printout of town property owners laid out by map and lot, with names of owners and altered addresses. The aim was to be able to cross-reference and identify the old and new numbers for houses. #00-1-4.

Document Box #49: PAUL H. ABBOTT BUILDER COLLECTION

Closet in room 6

Acc. #00-1-2. Boxes 49-1 to 49-5

1. Title Page

Paul H. Abbott, builder. Collection dates 1938-1971. Collection number 00-1-2. Size - 5 acid-free boxes, each 16"L x 12.5" W x 10"H - Processed by Faith J. Meyer, January 12 - March 11, 2000.

2. Introduction

This collection of papers was given to the Boothbay Region Historical Society in January 2000 by Dorothy W. Abbott, widow of Paul H. Abbott. During an interview with her on February 18, 2000, and from Paul H. Abbott's obituary (November 8, 1990) information was obtained which contributed to the biographical note. The collection papers cover many of the years of Abbott's building business, affording views of his business and his practices.

3. Biographical Note

A native of Trevett (Barbers Island), Maine, Paul Henry Abbott was born on September 26, 1907, and died in Boothbay Harbor on November 3, 1990. He was a graduate of Boothbay Harbor High School

DOCUMENT BOXES (LIST & INDEX TO CONTENTS)

and Bridgton Academy. Abbott was a long-time member of several committees and service organizations in the community.

Dorothy W. Abbott stated that in his 20's Abbott built with his father, Actor T. Abbott, Sr. By 1931 Paul Abbott "was well-established when they were married" in that year. Over the 45-year period of his building business Abbott and his crew constructed many houses (at least 40) and other buildings (Boothbay Harbor Public Works, for example), as well as remodeling and/or rebuilding many cottages, homes, churches, and schools in Boothbay, Boothbay Harbor, West Boothbay Harbor, and on the Isle of Springs.

One of his long-term crew members was his younger brother, Actor T. Abbott, Jr. The business was conducted from his garage, constructed alongside his house on Howard Street, Boothbay Harbor, both of which he built in 1937.

During World War II Abbott worked for Sample's shipyard and the Brunswick Naval Air Station. Those positions and WWII itself may account for "no work" reported by Abbott on his Employer's Quarterly Federal Tax Returns for 1943 and 1944.

On April 1, 1967, Abbott closed his building business.

4. Scope and content note

The collection is organized in 5 large acid-free boxes, yet not strictly chronologically. Each type of paper is not complete for the years of the business. Extrapolated from ledgers is a listing of contractees for whom Abbott worked. Selected packets of "paid bills" identified local businesses and others used by Abbott. Employer's Federal Tax Returns revealed the names of the men who worked for Abbott during some of the years of his business.

5. Inventory/container list

Document Box #61: Harriet Delamere Collection – Courthouse Documents #73-1-2

Harriet Isabelle Delamere

AKA Harriett Belle Delamere

Born Boothbay Harbor Maine circa 1880 to parents James Delamere and 2nd wife Hattie E. Sproul.

Both parents died June 1882, leaving Harriet an orphan at an early age.

Harriet went to live with her aunt, Emma Sproul, in the Brick House, Oak St., Boothbay Harbor, and attended Boothbay Harbor public schools, graduating from high school in 1896.

After teaching on Monhegan Island, Harriet trained as a nurse at the Boston City Hospital Training School for Nurses, graduating on May 21, 1910.

Her nursing career took her to service in the Army Nurses Corps and the American Red Cross during World War I from July 1918 to August 1919. She received the Victory Medal Service Ribbon with two bronze stars for participation in the St. Mihiel offensive and the Meuse-Argonne offensive. She also received a Foreign Service Certificate because she served on the Bureau of Nurses in France for the same period.

Extant papers reveal that Delamere was registered as a nurse in the Territory of Hawaii in Honolulu in 1921.

At some point, Delamere returned to the Brick House, inherited from her aunt, and died there on July 27, 1956.

Document Box #78: Clifford-Marino Letters

Document Box #78: Clifford-Marino Letters and Auxiliary Material

The letters in this collection were exchanged between Harold Burton Clifford and Jane "Jenny" Bennett Marino from May 1974 to April 1988. Clifford and Marino met when Marino's father was serving as the minister of the East Boothbay Methodist Church where Clifford was a member. Her Bennett father was at the church from 1925 to 1928. SEE her memories of her childhood in East Boothbay on page 14 on the church history pamphlet. Clifford was Marino's senior by twenty years or more. The majority of the letters in this collection were written by Clifford. The letters were a gift to the historical society from Marino's son, Ralph.

Harold Burton Clifford was born in Winthrop, Maine, May 21, 1893. He graduated from Winthrop High School in 1911 and from Bates College in 1916. He married Gladys Louise Mower in 1917. He was a teacher, principal, and school superintendent, serving in the latter position in the Boothbay Region from 1925 until his retirement in 1956. He earned a master's degree in history at Bates in 1941 and was awarded an honorary doctorate in Education from the University of Maine in 1956. Following the death of his first wife, he married Elizabeth Brown Blake in 1976. She died in 1986. Clifford died in 1988. He had three children, Stella, Edwin, and Flora, nine grandchildren, and six great grandchildren.

Clifford was highly respected as both an author and an educator. He was known for his life-long devotion to young people, for his keen wit, and for his major contribution to the world of literature. He was also noted for his historical research, updating the history of the Boothbay Region in the early 1960s.

The common threads among Clifford's letters are generally the activities and interests of his everyday living in East Boothbay, Maine, but from time to time (and more frequently in later letters when Clifford's advancing age and the failing health of his second wife increase the depth of his thinking) there are more letters in which the subject matter passes beyond the ordinary into the deeply personal. The confident Clifford becomes vulnerable, truly human, and he reveals to Marino things he doesn't share with anyone else. Marino becomes his outlet for personal and deeply private feelings. Clifford had a huge public persona, but these letters reveal the private Clifford.

The primary activities of daily life for Clifford include his family, his local church and the greater Methodist church, his flower and vegetable gardens, Rotary Club, Coastal Club, Bates College, writing (letters, textbooks, poetry, children's stories), stamp collecting, reading, music (playing the piano and conducting hymn sings), musical theater, and an occasional political reference. Clifford was an avid gardener and stamp collector. He loved music and played the piano enthusiastically for the Rotary Club and for group singing at the East Boothbay Methodist Church and the Coastal Club. Both he and Marino live busy and productive lives. Clifford's wit is evident throughout.
