SHIPYARD COLLECTIONS NOS. 1-6 OF THE BRHS

I. SHIPYARD COLLECTION #1: HODGDON COLLECTION

Kay, we need to tie the list to the boxes, enumerate what is in the box. I know the 1st box runs 1800s to 1949, but we need to have a big BOX #1” at some point in the list. Maybe we’d even print out the background info in the beginning and file it in the 1st box.. Looks like we should start a people box, as you mentioned below.

General non-Hodgdon source for name, year, type of boat: *Hodgdon Shipbuilding and Mills*, by Barbara Rumsey

Specific or general information found in non-BRHS sources should include a note on the source.

Misc. references: Hart Collection at MIT (website) Reed = Alden Reed database of one-designs [SEE MISC. BOX]

Bray = Maynard Bray or *Woodenboat* UNK = Source not attributed

Most Alden & Owen boats have been checked against designer or library lists.

Clippings are from the *Boothbay Register* unless otherwise indicated.

Indications following year: F=There is actual information in a File; R=Rolled. There are no separate files for boats without physical items.

HIGHLIGHTED items have some problem or question. Cataloger should spell out problem and possible resolution or alternate source.

HB&GS: HB and Goudy & Stevens. See Goudy file/list for add’l info on WWII and Korean War USN minesweepers and troop transports.

HALF-MODEL reference numbers are from Sonny’s (George I., Jr.) “Half Model Collection” notes. Actual models are NOT part of the museum’s collection

PEOPLE

Note: History & People items to be located in a separate History & People file box.

Ownership:

1816; CALEB, SR. built his first boat at Jeremysquam [Westport], ME.

1825; Caleb moved to East Boothbay [2009 site of Ocean Point Marina], building there until his death in 1874.

Caleb’s sons CALEB, JR., JOHN P. & GEORGE M. continued the business, known informally as Hodgdon Brothers by around **1878**.

c. 1894; George M.’s sons FRED, WILL & CHARLES become owners/operators of Hodgdon Brothers, with GEORGE I. eventually joining his brothers. Fred left the business early, moving to Herreshoff.

1894: Aug. 18 obit John P. Hodgdon

1945: GEORGE I. “SONNY” took over from the retiring brothers. During the war years HB & Goudy & Stevens collaborated on a number of NAVY vessels.

1967: as business slowed, Sonny sold the yard to Neil TILLOTSON who also owned John Alden Designs, Inc. This yard [located where Ocean Point Marina stands in 2009], was leased by Goudy & Stevens in 1982, who purchased it in 1985. C&B Marina functioned at this site from

1969: Sonny established G.I. HODGDON CO. at his home on Murray Hill, East Boothbay. His first boat was a 25’ Buzzard Bay One-Design for Mystic Seaport Museum.

SHIPYARD COLLECTIONS NOS. 1-6 OF THE BRHS

In **1971**, Sonny [George I., Jr.] expanded his shop and began work on SEA FEVER for Robert Brown.

In the **mid-1980s**, he erected a building a quarter-mile east of his home on Murray Hill to accommodate large boats and yachts.

By **1983**, Sonny had turned ownership of the business, now known as HODGDON YACHTS, over to his son TIM.

In **the mid-1990s**, HY purchased the former Goudy & Stevens yard on the waterfront in East Boothbay.
