SHIPYARD COLLECTIONS NOS. 1-6 OF THE BRHS

I. SHIPYARD COLLECTION #1: HODGDON COLLECTION

Kay, we need to tie the list to the boxes, enumerate what is in the box. I know the 1st box runs 1800s to 1949, but we need to have a big BOX #1” at some point in the list. Maybe we’d even print out the background info in the beginning and file it in the 1st box.. Looks like we should start a people box, as you mentioned below.

General non-Hodgdon source for name, year, type of boat: *Hodgdon Shipbuilding and Mills*, by Barbara Rumsey

Specific or general information found in non-BRHS sources should include a note on the source.

Misc. references: Hart Collection at MIT (website) Reed = Alden Reed database of one-designs [SEE MISC. BOX]

Bray = Maynard Bray or *Woodenboat* UNK = Source not attributed

Most Alden & Owen boats have been checked against designer or library lists.

Clippings are from the *Boothbay Register* unless otherwise indicated.

Indications following year: F=There is actual information in a File; R=Rolled. There are no separate files for boats without physical items.

HIGHLIGHTED items have some problem or question. Cataloger should spell out problem and possible resolution or alternate source.

HB&GS: HB and Goudy & Stevens. See Goudy file/list for add’l info on WWII and Korean War USN minesweepers and troop transports.

HALF-MODEL reference numbers are from Sonny’s (George I., Jr.) “Half Model Collection” notes. Actual models are NOT part of the museum’s collection

PEOPLE

Note: History & People items to be located in a separate History & People file box.

Ownership:

1816; CALEB, SR. built his first boat at Jeremysquam [Westport], ME.

1825; Caleb moved to East Boothbay [2009 site of Ocean Point Marina], building there until his death in 1874.

Caleb’s sons CALEB, JR., JOHN P. & GEORGE M. continued the business, known informally as Hodgdon Brothers by around **1878**.

c. 1894; George M.’s sons FRED, WILL & CHARLES become owners/operators of Hodgdon Brothers, with GEORGE I. eventually joining his brothers. Fred left the business early, moving to Herreshoff.

1894: Aug. 18 obit John P. Hodgdon

1945: GEORGE I. “SONNY” took over from the retiring brothers. During the war years HB & Goudy & Stevens collaborated on a number of NAVY vessels.

1967: as business slowed, Sonny sold the yard to Neil TILLOTSON who also owned John Alden Designs, Inc. This yard [located where Ocean Point Marina stands in 2009], was leased by Goudy & Stevens in 1982, who purchased it in 1985. C&B Marina functioned at this site from

1969: Sonny established G.I. HODGDON CO. at his home on Murray Hill, East Boothbay. His first boat was a 25’ Buzzard Bay One-Design for Mystic Seaport Museum.

SHIPYARD COLLECTIONS NOS. 1-6 OF THE BRHS

In **1971**, Sonny [George I., Jr.] expanded his shop and began work on SEA FEVER for Robert Brown.

In the **mid-1980s**, he erected a building a quarter-mile east of his home on Murray Hill to accommodate large boats and yachts.

By **1983**, Sonny had turned ownership of the business, now known as HODGDON YACHTS, over to his son TIM.

In **the mid-1990s**, HY purchased the former Goudy & Stevens yard on the waterfront in East Boothbay.

Town of Boothbay Records (paper and microfiche)

Town of Boothbay Paper Records

In the late 1980s, the town requested that we copy for them and the society some of the deteriorating old vital records, so they would be more manageable and accessible. The town consented to our continuing the process and copying other records of interest. We now have three feet of photocopied town records, including some vital records; town meeting proceedings; bills, mortgages, and deeds; and tax records. The tax and valuation records are most valuable in determining residency and lifestyle of the residents since the real and personal estates are listed.

Town of Boothbay Microfiche

The town of Boothbay microfiched many of their records in 1972. We obtained copies of their microfiche in 1987 with a Maine State Library grant. The same year the society copied more of the town's records onto microfiche. The total is a half foot of microfiche cards. Each card holds about thirty-five images which works out to seventy pages a card.

The town of Boothbay has all the above valuations and those following 1871 to the present in their vault in the town office. Information on school and highway districts are provided in some of the tax records. Pre-1871 uncopied tax books at the town office are: 1857-1869 (400 pages), 1852-1860 (500 pages), 1867-1869, 1870-1874.

Town Reports of Boothbay, Boothbay Harbor, Southport, and Edgecomb

Over the years, the society has collected seven feet of Boothbay, Boothbay Harbor, and Southport town reports from various donors. Town reports have been published annually since the 1870s to the present. The early ones provide information on various topics, including: the towns' expenditures, individuals paid by the town for services, paupers supported by the town, and the state of the schools; many decades of reports list births, marriages, and deaths. In 1891 Boothbay Harbor started listing all taxpayers who owed a poll tax or real or personal estate tax; Boothbay did the same in 1921. Thus, residency can be determined through consulting them.
