

## Family History Files at the BRHS

Family Name	Location of File
-------------	------------------

**NOTE:** The BRHS' genealogical files are found in five separate collections, all housed in the Society's Reference Room. The BRHS Family History files were compiled by Barbara Rumsey. A second set of Family History Files was compiled by Muriel Howard and donated to the Society. In addition, the BRHS possesses a collection of bound family histories compiled at different times by different authors. All of these indexes are consolidated in the present document, which is alphabetized by family name. Muriel Howard compiled an extensive set of alphabetized index cards containing notes on individuals and families. These are indexed only by the initial letter of the family name. They are stored in their own file cabinet in the Reference Room and must only be consulted through their digital copy. Finally, Muriel Howard compiled a list of the denizens of local cemeteries, which is the subject of a separate index.
